PROFILE

Hi, I am a Front-End Developer and UX/UI designer with a passion for the internet and digital world. It began at a very young age when I dabbled with creating the websites using HTML/CSS. Since then I have always been hooked on creating elegant, usable and effective websites by pushing my boundaries. I have designed beautiful, functional designs for Vadodara International Half Marathon, The World Heritage of India - Pawagadh Temple, Vote Vadodara Vote Campaign, United Way Baroda, Marco's pizza, Baroda Public School and many more. I strive to keep myself up to date with cutting edge technologies and de-signing trends. I also appreciate things like traveling, eating my way through cities, and staying caffeinated.
